

## Record Crowd Expected for Drumheller vs. Coleman Game

### Pass Town Committees Enthusiastic for Special Train to Jamboree

Mrs. R. P. Borden, district commissioner of the Girl Guides, is planning on sending all Guides in her district to the Jamboree at Calgary on April 22. A series of teas is being held to raise funds to defray the expenses of those who may be unable to raise their own, and troop committees in the district are being urged to take similar steps so that there may be a 100 per cent attendance from the Pass towns.

E. D. Battum, of the provincial executive of the Boy Scouts, spent considerable time last week in southern Alberta, visiting Coleman, Cardston, Raymond and other points arousing enthusiasm in the forthcoming visit of Lord and Lady Baden-Powell to Calgary as part of the world tour.

It is expected there will nearly be 5,000 Guides and Scouts massed in a fleur-de-lis formation in the arena in Calgary to greet the Chief Scout and his wife, and it will be the most impressive Scout and Guide demonstration in the history of the province.

Reports indicate that southern Alberta will give enthusiastic support to the efforts of local committees in the various towns where the Guides and Scouts are organized.

### Annual Meeting International Co., March 28

The 32nd annual general meeting of shareholders and directors of International Coal and Coke Co. Ltd. is to be held in Coleman on March 28. Looking backwards on 32 years of the company's history, it is interesting to quote from a souvenir edition of the Fernie Free Press published in 1907, as follows:

"Vice-president H. N. Galer retires from the active management to be succeeded by O. E. S. Whiteside as general manager. Few coal mining companies have enjoyed a period of success so conspicuous as has the International company. From the first stroke of a pick in 1903, it has in four years grown to its present magnitude with never an interruption of its progress until it is noted as having erected one of the greatest individual coal mining enterprises in Canada."

"From 1903 till 1907 (the year the edition quoted from was published) the output has constantly increased until in 1907 it reached the grand total of 350,000 tons."

Rental for the community hall is \$15 for concerts and \$20 for dances. A wrong impression was created by a party stating it was far in excess of that. The above rates have been in force since the hall was reopened, and it is certainly worth it to any show of any size or importance.

### COMING EVENTS

advertised in this issue of The Journal

Monday, March 18, St. Patrick's Hall, auspices Coleman Elks Lodge.

ADVERTISEMENTS of Leading Merchants will be found in this paper. Read their announcements.

1933-34 Intermediate Champions now contending for Senior Provincial Championship

### CREEGGAN WINS STUDEBAKER BUY TICKETS EARLY FOR JAMBOREE

Making a strong comeback after going down to Key last week in the Pontiac, the Creeggan rink gained a sweeping victory over Congdon of Blainmore in the finals of the Studebaker cup on Sunday afternoon. Milt Congdon, skipping the rink, was off form, while Destabel, who skipped the local rink, settled down after a shaky start to bring his team out in front and increased his lead into a comfortable margin, being six up coming home.

In the league standing D'Appollonia, having finally emerged into the lead, having thirteen wins, while Destabel holds down second place with twelve wins. Cousins, who was in the running during the first half, slipped a little and is now in third place with eleven victories.

### LOCAL JUNIORS TRIM BLAIRMORE HIGH SCHOOL

Coleman juniors continued their impressive string of victories on Monday evening when they trimmed the fast stepping Blainmore high school 8-4. The local juniors are a clean, fast skating aggregation of youngsters who play good hockey and have proved their worth by defeating teams in Michel, Blainmore, Bellevue and Pincher Creek this season.

They took an early lead in the first period when Troitz, Roughhead and Jenkins each beat Duboc while Chala replied for Blainmore. Blainmore were the aggressors during the second period and Sygatak made some marvellous saves from point blank range, being finally beaten when Chala shot, the puck glancing off Fleming's skate into the net.

Led by Troitz in the third period Coleman went wild to score five goals. Troitz getting three while Kanik and Jenkins counted the others. Crowder and Olson replied for Blainmore to finish the score. The line-up:

Coleman: Sygatak, Jenkins, Fleming, Glendenning, Kanik, Roughhead, Troitz, Spevak, McLeod, Ferraro. Blainmore: Duboc, Galin, Irvine, Hannon, Chala, North, Kubik, Rae, Olson, Crowder, Morency, Walker, Blas.

### SO DOUGLAS IS COMING

Many people, especially in the southern part of the province, are somewhat torn between the rival Social Credit plans of Major Douglas and of his Alberta disciple Wm. Aberhart. These will be glad to know that the Reid government is arranging to have Major Douglas brought here as a "reconstruction adviser" to help untangle the situation in which the government finds itself. He may while here enlighten the folks of Alberta upon the difference between himself and Mr. Aberhart.—The Parliamentary Show, by J. S. Cowper, Edmonton.

### The Palms

First Guest: "Wonder why they call this hotel the Palms? I've never seen a palm anywhere near the place."

Second Guest: "You'll see them before you go. It's a pleasant little surprise the whole staff keeps for the guests on the last day of their stay."

### ELKS ACTIVE IN COMMUNITY EFFORT

Since reorganizing last October Coleman Elks have added about 28 new members, and in addition to other activities intend to celebrate St. Patrick's Day by a monster dance in the Community hall on March 18. With Bill Jenkins as exalted ruler and George A. Brown as secretary, and an energetic executive committee, more will be heard of the Elks in community activities. They have a creditable record, as they raised considerable sums for the skating rink, the swimming pool and the X-ray machine in the miner's hospital.

### FAIR TRADE BOARD PETITION

A petition is being circulated among retail merchants to be forwarded to Premier Bennett and members of the House of Commons asking that a Fair Trade Board be established, under continuous Federal government supervision and control, working in conjunction with provincial governments, to establish fair trading practices and with powers of enforcement. Mr. Ed. Ledieu interviewed the retailers this week enlisting their support.

### Boy Scout and Girl Guide Notes Coleman Troops

Encouraging support was given Mrs. Borden's efforts to raise funds to convey the Rangers and Girl Guides to the Jamboree at Calgary on Easter Monday, to greet Lord Baden-Powell, Chief Scout, and his wife, Chief Girl Guide. The first of a series of three "teas" netted \$35, and the objective requires a sum sufficient to pay the cost of every Ranger, Guide and Brownie. The next tea will be on March 23.

Only once in a lifetime does the opportunity occur to honor one whose life since retiring from military service has been engaged in the ideal of training "Soldiers of Peace." As many parents value the training in ideals of good citizenship, a liberal measure of support should be accorded Mrs. Borden's efforts as district Commissioner of the Girl Guides. The special train which will leave Coleman on April 22 could show no better evidence of appreciation than that it be filled with boys and girls and their parents. "On to Calgary" is the slogan to honor our great crusader of international goodwill, which finds expression in the Boy Scout and Girl Guide organizations in many countries.

Representative of the Pass towns, Boy Scout and Girl Guide leaders met at an enthusiastic meeting in the Greenhill hotel on Feb. 23, at which Mr. E. D. Battum, member of the provincial executive of the Boy Scouts Association outlined in detail plans for conveying boys and girls to Calgary on April 22, and the program during their visit for the Jamboree. C. J. Tompkins, president of the

### Drumheller Miners to Battle Drumheller Takes First Game Against Coleman in Play-Downs

Excitement has reached fever heat with the coming of Drumheller Miners, winner of the Southern Alberta senior hockey league, to the local arena on Saturday evening where they will play the second of the two game, home and home series, total goals to count, with the Canadians. Interest will be centered on Drumheller Thursday evening when the first of the series will begin and providing Coleman hold them to a close score the game here should be a thriller. The Canadians are in perfect physical condition and full of confidence and under the watchful eye of Coach Kwasney should give a good account of themselves.

Drumheller 2, Coleman 0 was the final score at Drumheller last night. Joyce, star centre, was badly injured in the second period. It is thought he suffered a broken collar-bone but no confirmation of this has been received. Coleman played a strictly defensive game in an effort to hold down the score. Collagrosso played the game of his life and was the star of the evening.

### Negotiating Committees Appointed

Coleman Miners Association held a meeting in the Community hall on Sunday, when the new agreement was discussed and business pertaining to the hospital board. The present agreement between the companies and their employees expires on March 31, being the close of the two year period. Committees appointed to negotiate with the companies were: McGillivray J. Atkinson, sr., W. Chapman, Geo. Ford, M. Stigler, International J. Hadley, E. Hill, W. Lees, W. Hayson.

### Looking Backward

Joe Gate has a book awarded him as a school prize in 1913, with the following inscription: Second prize awarded to Joseph Gate by Coleman School Board for best attendance in Room V. during the year 1912. Alex. Cameron, Chairman of School Board, Coleman, Jan. 17, 1913.

More and more women are looking to the store ads for guidance in shopping.

#### What Are Actual Needs?

Listening to a discussion the other day on quotas and schedules adopted by governmental authorities as a guidance to those entrusted with the heavy and extremely difficult task of dealing with the cases of people who at this time are compelled to look to governments for the bare necessities of life, the question was forced upon our attention: What do we actually need?

There are an enormous and varied number of things we want, and our wants differ as greatly as our individualities differ, but when it comes down to a definite listing of the things we actually need not only to sustain life, but to make life really worth living, the number and variety of such needs is comparatively small.

People to-day list as needs scores of things which less than a generation ago were not even in existence, or so little known and in use as to be regarded as very great luxuries. For example, unemployed people living in our cities and, through no fault of their own compelled to accept municipal and government help, look upon the provision of electric light as an absolute necessity, and would consider it a great hardship if they were asked to resort to candles, or even the old kerosene lamp, as a means of illumination. Yet their parents got along very well with kerosene lamps and their grand-parents and great-grandparents did not feel they suffered any great hardship because they had nothing but candlelight. And throughout the length and breadth of rural western Canada to-day hundreds of thousands of people get along very well with kerosene lamps. But in our cities people now list electric light as an absolute need.

Casting our memories back to boyhood days, thirty, forty, fifty years ago, we recall that our clothing and food requirements, our actual needs, were small and inexpensive compared with what we list as needs now. As a matter of fact, many of our so-called present day needs are not needs at all, and if our environment was shifted, we would not regard them as needs. Hundreds of people go camping every year, leave what we term "civilization" and go off into the wilds, and put up with conditions of living, and go without scores of things,—and enjoy doing so,—which at home they insist upon having as actual needs.

Life, and real living, does not consist in the abundance and variety of the material things we may possess. The pioneer lacked most of the things now listed as absolute necessities, yet they enjoyed good health, were happy, and found life well worth the living. They built homes, reared families of sturdy children, saw beauty in their surroundings, and developed character. Their needs were few and inexpensive. And they built nations.

These years of depression are developing two types of people. Out of one group men and women are emerging with stronger, finer characters. They are more self-reliant, with hampering superficialities burned away like so much dross, with the result that with the passing of the depression they will be the strong men and women who will take the leadership in this world, and who, out of the experiences of these years, will profit throughout the years to come. The other group consist of those who have been content to drift with the tide, to regard themselves as the sole victims of circumstance, ready to sit with folded hands and let others not merely provide them with actual needs, but who demand that these others shall further burden themselves in order that they may be supplied with things they want over and above their needs. With the passing of the depression, members of this second group will find themselves unequipped and incapable of making that provision for themselves which they will then be called upon to make.

People in this second group are ruining their own lives and jeopardizing their whole future. Before it is everlastingly too late they should take stock of themselves. The State must and will provide all people with actual needs of subsistence, including shelter, food and clothing when because of the vagaries of nature, or the inability to secure employment, these people cannot supply their own needs. But desires and wants must not be confused with needs. And the fact that the day is coming when all people will have to make provision for their own needs, as well as to gratify their desires and wants, should not be the least sight of it.

It would be well, therefore, for all people to give serious consideration to what are needs and govern their demands upon their fellow citizens, as represented by the State, accordingly.

#### Seven Miles Of Wool

Used In Scarf Weighing Only Two  
And Half Ounces

A London newspaper says: "With shame and sorrow this column has to admit that it rather shirked dealing with the question of the royal wedding presents at the time of the wedding of Princess Marina and the Duke of Kent. It seemed such a vast task, and photographs of the presents while they were on display gave a much better impression. But now, although so late in the day, it seems a pity not to tell of one present the Duchess of Kent received. It came from the Shetland Islands, and was a self-made gift from the islanders themselves. It was a scarf knitted by Mrs. Thomas Sutherland, who is 80 years old, and contained seven miles of wool thread weighing only two and a half ounces! That, we maintain, is fine work. It was plucked by hand from the necks of lambs and spun by the 83-year-old sister of the knitter."

#### Strange Happening

Radio Music Is Heard From The  
Spout Of A Kettle

Steam comes out of the spout of Miss Ruth Lightbourn's kettle at Oakville, Ont., but the unusual is also capable of producing other things. During a heavy fog, fine orchestra music came from the water container as it sat on the stove. The program, which was audible eight feet away, lasted 20 minutes, then faded. During a lighter fog the performance was repeated, but the music was fainter.

There is no radio in the house and the stove is in no way connected with a ground or aerial system. Miss Lightbourn is at a loss to explain the strange occurrences.

#### HEADACHE, BACKACHE?

Mrs. J. W. Thomas, 16 Lattin Ave., Toronto, Ont., says: "I had headache, pain in my back, had no appetite and could not sleep. I took Dr. Wernert's Powder and I am now well and happy. I give it to my children."

New size, 10¢ each. Kindly ask for free medical advice.

#### Signs All Can Read

Pictorial signs: a telegraph post for the telegraph office, a trunk for the baggage office, and a big question-mark for inquiries are in use at Parkstone Quay, Harwich. All the symbols selected are known the world over, and foreign visitors of all nationalities can "read" them.

Meat packers report that more meat was consumed in the United States in 1934 than ever before in history.

A plant in Norway produces rust-free and acid-resisting steel, having an annual capacity of between 40,000 and 50,000 metric tons.

W. N. U. 2087

#### Heated Railway Car

New Type Is Developed For Transportation Of Fruit And Vegetables

Canadian National and Canadian Pacific Railways are developing a new type heated car for transportation of fruit and vegetables, the Canadian horticultural council was told in the report of its transportation committee.

The council instructed its transportation committee to draft a resolution which would ask a portion of any federal monies voted for building of new rolling stock by the railways be used to increase the number of fruit and vegetable carriers.

Col. R. L. Wheeler, Dominion fruit commissioner, described experiments by the railways to develop a new type heated car. The model he described was charcoal heated, with a system of hot-water pipes similar to a domestic heating plant. The council had asked the railways to consider a gas-burner heater, with inside temperatures regulated by the degree of cold outside the car.

#### Seek Oil Independence

Germany Hoping Domestic Requirements Will Soon Be Met

Amazing was the resistance offered by the Germans during the war largely because of her scientists, and now the German people are seeking through scientific means to make their country as economically independent as possible. They are increasing their efforts to find substitutes for imports. Not the least of these is petroleum, or the mineral oil from which it is produced. It is now asserted by German scientists that within a few years Germany will be independent of mineral oil imports. Petroleum is being produced synthetically from coal, and success is attending efforts to utilize brown coal lignite so extensively found in Germany. In the last year Germany has produced a third of the petroleum needed and she hopes that by 1936 her total domestic requirements will be met.

The Finnish statistical office reports that in the 13 main towns and cities of the republic 19,271 married women are engaged in remunerative activity; this is 18.9 per cent. of all married women there.

Glasgow, Scotland, and the Isle of Man are to be connected by an air service.

Chewing Tobacco

#### Proves That Earth Wobbles

Stars Once Seen Now Do Not Rise Above Horizon

When the astronomers of ancient Greece grouped the stars and found names for them they listed constellations that can now longer be seen from Greece. In this way they supplied Sir James Jeans, the British astronomer, with a proof of a scientific fact discovered long years after they departed this terrestrial planet. Among the constellations named by the men of Greece 2,500 years ago are some which, although visible then, cannot be seen in Greece to-day because they never rise above the horizon. The wobble, as it is called, is a movement of the spinning earth in which its axis makes a small circle once in every 26,000 years; in other words, each pole describes a circular path in the heavens at the speed of about a foot a year. This slow movement is caused by the pull of the sun and moon on the bulging equatorial part of our globe.

#### A Speedy Camera

Photographing simultaneously moving machinery and a clock dial, a camera recently invented in Europe takes up to 2,600 pictures a second and detects errors.

**FALSE**

**DR. WERNERT'S POWDER**

Gripes plates so firmly and snugly they can't slip—you never know you have false teeth. Dr. Wernert's Powder is pleasant and never causes soreness. It is the world's largest seller—prescribed by leading dentists—costs but little but blissful comfort is yours all day long.

**TEETH**

**TELL YOU HOW  
TO ROAST  
MEAT BETTER**

—and no pan-scraping afterwards

Line your roasting pan with Canapar Cookery Parchment. The fats and juices won't burn. The meat is more succulent—and you save yourself all the bother of scraping or scouring the pan afterwards.

You can cook three vegetables at once in the same pot—when you place each in a bag of Canapar. No odors escape. All the goodness is sealed in. Use only ONE burner and turn that down low. Save fuel! Boiled or steamed fish is better, and less work, cooked in Canapar.

Just rinse the sheet of Canapar and use it over and over again. It won't absorb odors. Many women use it for a dish cloth. It's just like silk when wet—is very tough and does not shed lint.

## Direct Talks Expected To Consolidate Peace In Europe For Years

London.—Direct conversations between Great Britain and Germany, not only on the proposed western European defensive pact but on the whole field covered in the Anglo-French accord of Feb. 3, were declared certain to take place in the near future.

This was a remarkable step forward from the situation prevailing following the Anglo-French invitation to Germany (and to Italy and Belgium) to join in a series of accords designed to bring Germany back into the League of Nations, conclude a general armistice limitation treaty, extend the central and eastern European pacts and thus consolidate European peace for years to come.

Great Britain, after days of consideration by the British and French governments following the initial German reply to the Anglo-French overtures, opened direct discussion with the governments of Germany, Italy and Russia through the British ambassadors in the respective capitals.

After only a few hours, it was reported preliminary discussions in Berlin had revealed complete agreement that the contemplated Anglo-German conversations should not be confined to the question of the air pact—virtually the only phase on which Germany expressed willingness to talk at first—but should embrace the whole field covered in the Anglo-French communique.

It has not yet been definitely decided whether the Anglo-German conversations shall be conducted by Foreign Secretary Sir John Simon in Berlin, or by German Foreign Minister Konstantin Von Neurath in London. But talks in Berlin appeared much more likely.

They would not only enable Adolf Hitler, who has the last word on German foreign policy, to participate directly, but they would facilitate a visit by Sir John to Moscow possibly to Warsaw, a diplomatic tour which has been given earnest consideration since the Russian note which urged the Anglo-French accords should be carried out in their entirety, with special stress on the proposed eastern Locarno.

### Joins Bank Of England

Leading Canadian Economist Receives Appointment

Toronto.—Professor Gilbert Edward Jackson, leading Canadian economist, has been appointed to the position with the Bank of England, and has resigned his professorship of political economy at the University of Toronto, President H. J. Coyle announced.

Professor Jackson's new post will be an advisory one. A special field will be the British Empire in which, at the moment, three new banks are being established, including the Bank of Canada.

### Plea For Lower Tariff

Ottawa.—Colin Campbell (Lib., Frontenac-Addington) made a plea in the House of Commons for lower tariffs on mining machinery. He said in his resolution that the mining industry in recent years has been subjected to increasing taxation and had only been able to keep going because of the ingenuity of engineers whose researches had produced less costly methods of operation.

## Premier Bennett States That He Favors Public Control Of Radio

Ottawa.—While he favored public ownership of radio, Premier R. B. Bennett told the House of Commons he recognized a large body of public opinion held contrary views. Earlier he had told Hon. W. D. Fisher (Lib., Waterloo North), that as far as he knew there was nothing to warrant the newspaper report the radio commission was to be abolished and broadcasting abandoned to private enterprise.

During discussion of provisions of the unemployment insurance bill relating to appointment of a commission the prime minister again referred to radio broadcasting.

### Likely To Retain Post

Judge Taylor May Remain Head Of Pension Commission

Ottawa.—Retention of Mr. Justice Fawcett Taylor at the head of the Canadian pension commission when his period of service as temporary chairman expires some months hence is said to be contemplated by the government.

He was appointed last July for a period of one year, and for the specific purpose of clearing up the so-called "marriage cases." Among his duties was that of making a complete report to the government on operation of pension machinery.

The bill enabling the government to increase the number of commissioners by appointment of temporary members to the board has now passed the senate. The expectation is the government will name four to hold office until the present congestion is cleared away.

### Not Taking Part

Corporation In Scotland Cannot Afford To Mark Jubilee

Glenoch, Scotland.—Not without a struggle, the corporation of Glenoch on the Clyde resolved by a vote of 12-10 not to take part in the celebrations of the silver jubilee of the king's accession.

The resolution explained expenditures would not be fitting "because of the unemployment in the town." Bailie Mrs. McLeod described the king as "a wee, nice man" who reminded her of her father.

Bailie Scott vigorously objected to "trailling the unemployed into the question." The action would mark the last town where anyone would think of establishing a new industry, he asserted.

### Paid With Their Lives

Chinese Rebels Executed For Murder Of Missionaries

Shanghai.—Four more Communist rebels have paid with their lives for the murder of the United States missionaries, Mr. and Mrs. J. C. Stam, in southern Anhwei province last December, the foreign office here revealed.

Anhui province authorities, it was announced, captured the quartette and executed them. On Dec. 20, two weeks after the tragedy, four others were reported put to death, and the alleged leader of the Communist forces, who destroyed the Stairs' mission and beheaded the couple, was later reported killed in battle.

### Depletion Of Waterfowl

Fear Expressed Of Danger Of Extirpation Of Ducks

Winnipeg.—Federal authorities are concerned over depletion of waterfowl and fear extirpation of some species of ducks, according to a report submitted to the Manitoba legislature by Hon. J. S. McDiarmid, minister of natural resources.

Solution of the duck depletion problem rests primarily on measures taken in the United States, where the birds are fired upon over a much greater area in their migratory flight between the international border and the marshes of the Gulf of Mexico and Atlantic coasts, the report said.

## Fatal Plunge From Plane

Two Girls Meet Death In England In Strange Manner

Uppminster, England.—Two beautiful girls, daughters of the United States consul-general at Naples, plunged 1,500 feet to their deaths from an aeroplane and friends said they started on their last flight heart-broken over recent deaths of two officers of the Royal Air Force.

They fell from a passenger plane, on which they had reserved all eight seats, speeding to Paris. Horrified witnesses said they plummeted to the ground "clashed hand in hand in a last embrace."

They were Elizabeth Du Bois, 23, and Jane Du Bois, 20.

A stop-over at Naples, it was learned, gave the two officers opportunity to be much in the company of the American girls, the four making an all-day trip to Amalfi and Ravello the day before the "Ace of Diamonds" took off on its fatal flight.

(At Bedford, Bedfordshire, Dr. Blakely said his daughter Kathleen engaged to be married to a young man to marry him after he returned to Singapore in April. At Dublin, Mrs. Harold Lett, mother of Beatty, said her son wrote from Messina mentioning his acquaintance with the Du Bois girls but saying nothing of any engagement.)

Reports from Naples said Jane was engaged to marry Flying Officer John A. C. Forbes while her sister Elizabeth was reportedly engaged to Flight-Lieut. Henry Longfield Beatty. The two officers were among the nine victims of the crash of the big British flying boat, "Ace of Diamonds," near Messina, Italy, last week.

### Cockroach Soup

Reprisals Follow Quickly When Missionaries Committed In Russia

Archangel, U.S.S.R.—Five persons, including M. Sosnin, former secretary of the Communist party committee at Isakgorzky harbor, were sentenced to prison for the part they played in the "cockroach banquet" of which they were alleged to have compelled several restaurant employees to partake.

The five men were accused of forcing the personnel of the eating place to eat soup containing the insects as a disciplinary measure after a customer complained of finding a cockroach in his food.

Immediately after the incident, Sosnin was removed from his political post. The court sentenced him to three years' imprisonment.

The others were sentenced to shorter terms.

### Relief Loans

14,715 Single Men Working In Federal Relief Camps

Ottawa.—At the end of January, 14,715 single unemployed men were working in relief camps operated by the department of national defence, according to a return tabled in the House of Commons. They were distributed among 102 camps.

The total for Nova Scotia was 500; New Brunswick, 1,016; Quebec, 2,561; Ontario, 5,977; Manitoba, 1,166; Saskatchewan, 1,605; Alberta, 2,851; British Columbia, 6,850.

### FRANCE BIDS FOR ATLANTIC AIR SUPREMACY

An intensive race is on between various nations to determine which will be the first to establish commercial air service across the Atlantic. France has taken the lead with her huge new air liner, christened the *Lieut. de Vaisseau*. The ship recently completed its maiden flight in a manner which has given the French high hopes of being the first nation to span the Atlantic with regular commercial air service. At the same time Great Britain and the United States are experimenting with super-planes of different types and both countries expect to have planes ready in the near future. The new French air liner is capable of carrying 70 passengers in addition to its crew of seven. It is propelled by six motors of 850 horsepower each and is 104 feet long. It has a cruising speed of 200 m.p.h. Above is a picture of the giant French plane, while inset is Baron Henri de la Grange, French aviation commissioner, who is now in the United States studying commercial aviation on this side of the water.

### TO CHANGE LAW

Hon. T. B. McQuesten, Minister of Highways for Ontario, who will introduce important amendments to the Highways Traffic Act in the Legislature. The amendments will be made with a view to reducing the accident toll on city streets and highways.

### General European Peace

Soviet Russia Wants Peace Pact Carried Out In Full

Moscow.—Soviet Russia notified Great Britain and France it is in agreement with the London proposals for a general European peace pact on condition they are carried out in full.

Foreign Commissar Maxim Litvinoff instructed the Soviet ambassadors at London and Paris to inform the governments there that regional pacts such as the proposed eastern Locarno agreement are considered by the U.S.S.R. as absolutely necessary for the preservation of peace in Europe.

This stipulation in the Russian attitude struck directly at Germany, which the Soviets have been accusing of having ambitions of military aggression against Russia.

### Gasoline Inquiry

Tariff Board May Hold Session In Regina

Ottawa.—The tariff board may open its inquiry into gasoline tariffs in Regina. This would be in a manner for the board as at present constituted has never held hearings outside Ottawa.

The chief complaint that gasoline prices are too high, because of the tariff, came from the west and the point under consideration is whether it would be cheaper to bring witnesses here or for the board to go to the provinces. The board is busy preparing its report for the budget, which will likely be down in three weeks. When it is completed, it will start almost immediately on gasoline probe, it is understood.

### Obliged To Cancel Visit

Hamilton, Bermuda. Sir Astley Cubitt, governor of Bermuda, received confirmation from the Duke of Gloucester he would have to cancel his visit to Bermuda owing to delay caused in the schedule of H.M. A.S. Australia when she rushed to the aid of the schooner *Seth Parker* off Haiti.

## Further Step Is Taken In Government Reform Program

### Hon. A. A. Prefontaine Dead

Was Member Of Manitoba Legislature Almost Continuously Since 1905

Winnipeg.—Hon. Albert A. Prefontaine, a Manitoba cabinet minister in the Progressive government of Premier John Bracken since 1923, died in hospital here after a protracted illness. He was 74.

The Bracken government was first elected in 1922, and in the following year Mr. Prefontaine switched his colors from the Conservative party to the Progressive, and was appointed provincial secretary, railway commissioner and lands commissioner.

This office he held until 1925, when he became minister of agriculture, but following the general election of 1932 he was made a minister without portfolio.

Born in Upton, Que., in 1861, Mr. Prefontaine came to Manitoba in 1880, where he resided in St. Agatha, and then St. Pierre. He first entered the legislature in 1903, and with the exception of two defeats, suffered in campaigns of 1914 and 1920, had represented Carleton constituency continually.

### Larger Pensions

Special Relief For Unemployed War Veterans

Ottawa.—The burned out, unemployed war veterans had their brief moment in the House of Commons when a vote of \$2,500,000 was passed to be added out to them in monthly cheques. It passed with the blessing of all members, an increase of \$250,000 over last year's appropriation.

Pension Minister Donald Sutherland announced the appropriation would jump to \$7,500,000 next year if the age-limit was dropped from 60 to 56, as advocated in some parts of the country. In addition, because of the natural increase in the number of men unable to work because of war services, over the next ten years the appropriation would jump from \$42,000,000 to \$108,000,000.

Another vote of \$2,100,000 for special relief of veterans was passed by the house, and \$19,800 for the pension appeal court.

### Wolves Becoming Menace

Great Damage In Prince Albert National Park Reported

Ottawa.—Damage caused by wild animals in Prince Albert National Park, Sask., was called to the attention of the government in the House of Commons by A. F. Totzke (Liberal, Humboldt). Hon. T. G. Murphy, minister of the interior, said he was waiting for a report from park officials and would make a statement to the house later.

Mr. Totzke said timber wolves were becoming so numerous they were forming into packs and doing great damage to trap lines and slaughtering wild animals in district adjacent to the park.

## Hitler Mandatory Order Aims To Conscript Wealth Of Germany

Berlin. Reichsfuhrer Adolf Hitler has conscripted Germany's cash to buy raw materials and consolidated debts.

In one of the shortest laws passed by the Nazi government, the hunt for liquid assets was begun and will spare none upon whom the reichsmark of finance wishes to call for money.

Lutz Schwahn-Von Krosigk, the finance chief, was given wide powers to secure funds through credits, and is limited only by the fuhrer's personal estimate of the extent to which he should strip liquid assets from those who have them.

Von Krosigk may go to banks and demand loans. He may go to private firms and individuals and insist upon their parting with such cash reserves as are not absolutely essential to their well-being.

Financial circles expect the government to float a 1,000,000,000 mark during the year in a desperate attempt to keep the public works recovery program going.

Ottawa.—A further step in the government's reform program was taken when Prime Minister R. B. Bennett introduced two bills by which he hopes to establish a maximum eight-hour day, 48-hour week, and a statutory weekly day of rest in industrial undertakings. The measures were given first reading.

Mr. Bennett draws his constitutional authority for this legislation from the same source as that on which he based his unemployment insurance bill — international labor office conventions to which Canada is a signatory.

The conventions referring to hours of work and the weekly day of rest were among five ratified by the hours of parliament within the past fortnight.

The measures apply to practically all industrial operations but not to office workers, those engaged in supervision or management or those holding positions of confidence. The weekly-day-of-rest act is along the lines of the Lord's Day Act with some widening of scope. It provides penalties for failure of employers to observe its provisions which require all the staff employed in any industrial undertaking affected shall have a rest of at least 24 consecutive hours in every seven days.

Where possible the day of rest must be given the whole staff simultaneously, if possible on a Sunday. Exemptions from application of the act may be granted by the government-in-council after consultation with the appropriate associations of workers or employers when they exist.

Sub-section two of section five of the Lord's Day Act is repealed. This section provided the weekly day of rest for those engaged in occupations necessitating Sunday work would not apply if the regular hours of labor did not exceed eight in a day.

Penalties provided in both acts are fines not less than \$20 and not more than \$100 for each violation.

### Plenty Of War Supplies

Italy Well Prepared For Trouble In Ethiopia

Rome.—Italy's supreme defence council promised the nation the wells of war supplies will not run dry as 4,000 Italian troops with all the Mediterranean to Africa in consequence of Italo-Ethiopian tension.

The council, over which Benito Mussolini himself presides, concluded its fifth session in recent days with the statement:

"Italy can rest assured the council has done its duty in preparing in time those indispensable measures so that an eventual warlike effort can be carried out in conditions which will assure victory."

### Relief Frauds

Hamilton, Ont.—The city treasury has received \$1,451 as a result of exposure last week of two cases of relief fraud. Mayor H. E. Wilton announced. One family returned \$1,000 and another \$451. Both had substantial amounts left in their bank accounts after the city had been reimbursed it was reported.

## Hitler Mandatory Order Aims To Conscript Wealth Of Germany

Berlin. Reichsfuhrer Adolf Hitler has conscripted Germany's cash to buy raw materials and consolidated debts.

In one of the shortest laws passed by the Nazi government, the hunt for liquid assets was begun and will spare none upon whom the reichsmark of finance wishes to call for money.

Lutz Schwahn-Von Krosigk, the finance chief, was given wide powers to secure funds through credits, and is limited only by the fuhrer's personal estimate of the extent to which he should strip liquid assets from those who have them.

Von Krosigk may go to banks and demand loans. He may go to private firms and individuals and insist upon their parting with such cash reserves as are not absolutely essential to their well-being.

Financial circles expect the government to float a 1,000,000,000 mark during the year in a desperate attempt to keep the public works recovery program going.

## NOTES AND COMMENTS

LIFE certainly is not without plenty of humor. Many are awaiting William Aberhart's monthly dividend; a group of young recalcitrants at Blairmore stage a hunger strike and are bought off with a cash donation of \$3.35 each from the ratepayers. Others who are 'agin' the government raise vociferous objections to Premier Bennett's unemployment insurance bill because it will lessen the reasons for calling strikes. The industrious home loving citizen who by thrift and good management has something to share with those who have nothing, and who are willing to share nothing with the whole wide world, saws wood and says very little. Life is earnest, but it has lots of comic opera to enliven the day.

RUMOR has spread abroad to such an extent on Coleman's comparative prosperity that it will become a happy hunting ground for all kinds of gentry who use their persuasive power to part people from their cash. But it should be remembered by those who may be too easily gulled by the roseate hues of early dawn that there is a lot of slack to be tightened up, and unpaid bills should first be honored before succumbing to the wiles of those who do not care how far ahead they mortgage the income of the "easy marks."

"THE PUBLIC ownership of a given industry can only be defended upon the basis that it is economically and socially superior to private ownership. The public has a right to be satisfied that a publicly-owned industry is not going to be run by politicians for party ends, and that it is going to be managed by competent people who understand or who are capable of grasping large-scale business operations."

This statement was made by Mr. Herbert Morrison, former grocer's boy, now head of the London County Council, an avowed Socialist who appears destined to go higher in the political field in Great Britain. It is of special significance in view of the fact that so much is heard of public ownership and its supposed advantages. Canada, paying a staggering burden of interest on a publicly owned railway system, might well ponder the statement.

BUSINESS ACTIVITY in COLEMAN, securing coal takes a new lease of life following important developments in the coal industry in the coal towns of the west. Wide-awake merchants who almost throw up their hands in despair. They make service which increased employment will demand. Opportunities so long desired by Coleman will produce.

and energetic business-men will realize that ability and enterprise must be prime factors if they are to share in the upward trend of bigger business.

"THE HERALD" has a letter from a subscriber complaining bitterly that he has noted a number of letters against Social Credit. He threatened the loss of a lot of subscribers if the paper continued to publish them."

There is an example of intolerance. Likely the writer has read The Herald or any other newspaper with delight as long as its news and editorial expression were in perfect accord with his thoughts. Newspaper editors everywhere know that in order to serve everyone alike, they must publish news matter or correspondence for and against as long as it is reasonable in tone. He who threatens a boycott to bolster his cause indicates weakness in himself and the cause he espouses.

COLEMAN NEEDED A community hall—the bulk of opinion favored it. A few men pledged their personal credit to renovate the interior, buy furnishings, put in a heating plant, and place the hall at the disposal of the people who said—"Yes! it's a fine thing for Coleman."

THE TIME is here for more than good wishes; emotional phrases do not produce coin. The town, which means the ratepayers, has escaped the expense of maintaining a town hall, while a few have borne the financial responsibility of providing a community hall.

YOUNG PEOPLE'S clubs and the Miners Association have used it, paying a moderate rental, for caretaking, repairs and insurance. It is the only place available for a worth-while show or community gatherings which require greater seating capacity than lodge halls.

DEBTS HAVE to be paid; honest people make every possible effort to do so. Coleman will enjoy increased business activity and employment. The hall is a community asset, helping to increase local activity. If every employed person in Coleman were to be by Mr. Herbert Morrison, give a minimum of a dollar towards the debt reduction, it would be the finest evidence of appreciation. Some will give more because they are able. \$85 has been subscribed to-date, \$1500 is needed to cover debt liabilities. When that is done, worthwhile improvements can be considered. Canada, paying a staggering burden of interest on a publicly owned railway system, might well ponder the statement.

## New Pontiac Six Joins Eight for 1935

**NEW STREAMLINING**  
Pontiac makes its debut for 1935 with a new low-priced Six and an improved Straight Eight. An example of the Six is shown here. It is a 5-passenger Sedan with trunk. Both the Pontiac Six and the Pontiac Eight are presenting new streamlined designs. Many improvements and refinements are found in both lines. The solid-steel Turret-Top body by Fisher is one of the big features and the equipment includes hydraulic brakes. Inset is shown a rear quarter view of the Pontiac coach, revealing the beautiful streamline effect.

#### NAMING OF UNITED CHURCH

Coleman, Feb. 26, 1935  
Editor of The Journal:

There are two points of information which are absolutely correct: Re naming of the United Church, Coleman, from minutes of the annual congregational meeting held Jan. 11, 1926.

"The question of finding a new name for the Coleman church (United) was discussed by various members of the congregation and session. Finally James Fairhurst, superintendent of the Sunday school, submitted that the Sunday school lessons for the last quarter of 1925 were very timely and suggestive in this matter. The teachers and scholars were studying together, the missionary journeys of the greatest missionary of all time—St. Paul. Therefore on motion of James Fairhurst, seconded by Mr. Cameron, it was resolved that this church shall be designated St. Paul's United Church of Canada. The motion was unanimously agreed to."

Also the following from the minutes: "The following elders, Peter Allan, James Fairhurst, Alex. Cameron and James Scott were inducted on Sunday evening, Jan. 16, 1916, by Rev. D. E. Cameron, M.A."

(Sgd) James Fairhurst.

#### FROM A FORMER RECTOR OF ST. ALBAN'S CHURCH

The Editor.

Sir: In your issue of the 7th instant I read with interest the account of the annual meeting of St. Alban's parishioners. I noted the proposal to celebrate by a supper the "28th anniversary of the founding of the parish." May I correct an error here? Twenty-eight years ago I had completed my ministry in Coleman, having left for Lavonbe. It was in the first week of 1904 that I started the work of the Church of England in Coleman, organising the parish in a few months. The church was built and paid for before I left in the autumn of 1906. This year will therefore see the 31st anniversary. This may no doubt be checked up at the Diocesan office or in the bishop's records.

If the better part of a continent did not lie between us I should fish for an invitation to that harvest supper! Another parish which I had the privilege of organising was Olds. Naturally I am deeply interested in both that parish and Coleman. To the rector of your town and the present congregation, strangers to me except the Graham family, I fear, I wish every success and prosperity.

Yours, etc.,

R. A. Robinson.

#### QUOTATION FOR TODAY

Every day that is born into this world comes like a burst of music and sings itself all day through and thou shalt make of it a dance, a dirge, or a life-march as thou wilt.

#### THE PROVINCIAL SOCIAL CREDIT ASSOCIATION

Editor:

Dear Sir:

In view of many inquiries and requests for an explanation as to the difference between the Alberta Provincial Social Credit proposals and those of Major Douglas, we make public some of the major differences, set out in a comparative statement attached.

Mr. Aberhart

Major C. H. Douglas

(1) A monthly basic dividend of \$25.00 to every adult in Alberta.

(2) Funds for the scheme to be provided by a levy or tax on retail sales.

(3) Retail Prices to be controlled by a government appointed commission.

(4) \$10,000,000.00 will finance 120 million dollars worth of basic dividends.

#### COST OF LIVING FACTS

Ottawa, Feb. 27.—When Mr. MacKenzie King appealed for power in 1921, he pledged himself to reduce the cost of living. The cost of living went up, not down.

When Mr. Bennett appealed for power in 1930 he said he would endeavour to reduce the cost of living. He did. The Department of Labour maintains records of the cost of living. They represent the cost per week of a family budget for a family of five, and cover staple foods, fuel and lighting and rent. The yearly averages under the King and Bennett governments follow:

King Govt.	Bennett Govt.
1922.....\$30.87	1931.....\$17.76
1923.....20.70	1932.....16.01
1924.....21.27	1933.....15.83
1925.....21.61	1934.....16.02

An American exchange defines a kibitzer as a man who knows just what he would do if he were in your shoes, but has no shoes of his own.

It would be grossly unfair to accuse Wm. Lyon Mackenzie King of fiddling while Rome burns.

Mr. King doesn't fiddle. He writes a book.

Mrs. M. Clifford and Mrs. H. T. Halliwell were joint hostesses to the Women's Guild of St. Alban's church on Thursday evening at the home of the latter. Whist prizes were won by Mrs.

#### OLDEST MEMBER PRAISES HOWSON

Political life is often a short one "Joe" Dehene, member for St. Paul still alert figure and sprightly of wit—reminded the legislature last Thursday that he and the leader of the Labor group are the oldest political survivors on the speaker's left.

"We are the only survivors on this side of the house of the cyclone of 1921," he said in welcoming the new Minister of Public Works, and added, "I hope he is not like his predecessor who had no use for any constituency north of the Saskatchewan." He regaled the house of memories of the past—of seeing the metamorphosis of Hon. Geo. Hoadley from Conservative leader to Independent, until he finally emerged in his glory as a Minister in a Farmer government. He told of the political leaders he had served under since first taking a part in Liberal politics in 1900.

"I have served under Hon. Frank Oliver and all of the Liberal leaders since his time," he said, "yet none of them in talent, ability, devotion and sincerity exceed our present leader Mr. Howson. I have been associated with him in sports in our early days. I have seen him answer the call to service overseas and I have seen his progress in public service since his return. I predict for him a high place in the public life of our province."

The L.O.B.A. will hold a sale of work and home cooking on Saturday, April 6, from 3 to 6 p.m. in the L.O. O.F. hall.

L. C. SMITH TYPEWRITER—a splendid buy for \$35—Journal Office.

READ CAREFULLY THE GREAT SPECIALS—YOU'LL SAVE

#### LOCAL AND GENERAL

Mrs. James J. A. McLeod, R. P. Borden, A. M. Morrison, L. Lindoe and H. T. Halliwell left by auto on Sunday for Edmonton for a few days' visit.

Omitted from the list of floral tributes to Mrs. Dan McLeod last week was that of Mr. and Mrs. Edward Ledieu and family.

W. J. Bartlett, editor of The Enterprise, was a visitor in Coleman on Friday afternoon. "Bart" has almost recovered from his attack of rheumatism, though he still wears a boot a few sizes too large. It wasn't gout, he assures his friends. Gout is caused, supposedly, from high living, and no newspaperman can ever be charged with that.

#### ST. PAUL'S UNITED CHURCH

Amidst the change and transiency of material things the church stands as a sentinel pointing men, women and children towards the "city that hath foursquare" whose builder and maker is God. You owe it to yourself and to God that you give the church and her activities a rightful place in your life. Services of inspiration will be held. The morning sermon subject will be "The Friendship of Jesus." The girl's choir will sing. In the evening a selection will be sung by the choir and Mr. Taylor will conclude the series on "Pilgrim's Progress."

The Board of Managers will hold their regular monthly meeting in the hall on Monday at 7.

#### Who Are These?—Who Are These?

"Grass widowers," whose wives are absent on a party of their own arranging, are treading the straight and narrow path, keeping regular hours and all that sort of thing that dutiful husband should. Two have become so imbued with rectitude that every morning bright and early they take a "constitutional" along the railroad track with measured tread and stately mien setting a good example to the sluggards who might be tempted to stay in bed. If this continues, next thing they'll be writing odes to spring. When the wives read this on their return, they will feel like congratulating each other on having such well-behaved husbands—maybe! Now curiosity may prompt others to ask who are the husbands? Then the fine impression we have tried to create will be shot to—!

#### Workmen's Compensation Board

Mr. Howson to propose the following motion to this Assembly, seconded by Mr. Bowlen:

Whereas there is in the Province a great deal of dissatisfaction with the Workmen's Compensation Act and the administration thereof; therefore be it

Resolved, That the Workmen's Compensation Act should be completely reviewed and amended so as to insure that every injured workman shall receive his just claims and particularly to provide for an independent Board of Review of all cases where dissatisfaction has arisen or may arise in the future.

## NOW SORE THROAT EASED IN LESS THAN 3 MINUTES!

### Rawness, Irritation Go at Once Note Directions for New Instant Treatment

Incredible as it may seem, doctors are now prescribing a way that relieves raw, painful sore throat in as little as 2 to 3 minutes!

All you do is crush and stir 3 Aspirin tablets in ¼ glass of water and gargle with it twice.

Aspirin tablets disintegrate so completely no irritating particles are left. Results are immediate. At once soreness is eased—discomfort allayed.

Everywhere throat specialists urge this fundamental treatment instead of less effective old-time "washes" and "antiseptics." Remember this: And when you buy, see that you get ASPIRIN. It is made in Canada and all druggists have it. Look for the name Bayer on every Aspirin tablet. Aspirin is the trade mark of the Bayer Company, Limited.

### DOES NOT HARM THE HEART

## WORLD HAPPENINGS BRIEFLY TOLD

T. W. Grieve of Montreal was elected president of the Canadian Producing Association at its annual meeting in Toronto in conjunction with the 23rd annual convention.

Rear-Admiral Richard E. Byrd, who arrived at Dumedin, N.Z., with his second Antarctic expedition, disclosed the expedition is \$50,000 in debt.

Toronto Centre presbytery of the United Church of Canada voted 51-20 in favor of ordination of women as ministers. The decision will be passed on to the general council of the United Church.

Steps to organize a Canadian coal committee with a view to encouraging wider markets and greater consumption of this Alberta product were taken at a meeting of representatives of boards of trade and other organizations in the province.

Official sources charged that reports of a famine in Soviet Russia were part of a deliberate campaign by enemies of the Soviet union and cited recent figures to show the wheat crop last year was larger than that of 1933.

Canada's revenues for present fiscal year are running \$31,000,000 and \$32,000,000 ahead of last year. The Dominion's revenues are figured every day. They include customs, excise and income tax receipts, post office revenues, tax on gold and several minor sources.

Dr. H. A. Bruce, lieutenant-governor of Ontario, urged Toronto city council to start immediately on a slum clearance program. Dr. Bruce stated Canada was lagging behind the rest of the world in state-assisted housing and it was up to Toronto to give leadership to the rest of the Dominion.

Advertiser what you will do and then make doubly sure that you do what you advertise to do. That is what makes the fullest success of advertising.

Figures show that fewer errors are made in night baseball than when the pastime is played in the day.

## Doctors advise this natural corrective for Constipation!

Not a drug . . . safe, effective, economical!

Stop sour stomach, bad breath, headaches and all constipation ills. You can do it easily, cheaply with Quaker Bran.

Quaker Bran, the coating of the wheat, is milled so soft it cannot irritate. Yet it is effective. It works with nature to produce normal, healthy bowel movement . . . preserving the intestinal muscles to normal activity.

Remember, Quaker Bran is different from all prepared bran cereals. It is pure bran, unadulterated—untreated—unadulterated. For these reasons it is definitely richer in mineral and vitamin content.

Serve it with your regular cereal each morning or in muffins, cookies, etc. There is a recipe book in every package.

## QUAKER BRAN

Pure, Natural, packaged bran.

## A Pipeless Organ Electricity Produces Tones In New Reedless Instrument

A "pipeless pipe organ" that draws its music from automobile headlights beams has made its debut in Philadelphia. Its tones are produced by electricity alone, with no pipes, reeds, strings, record or sound film arrangement.

It is smaller than most pianos, can be moved about at will, and "plugs in" at any electric light socket just like a radio or an electric refrigerator.

The instrument, developed with the aid of Leopold Stokowski, conductor of the Philadelphia Orchestra, was introduced by its inventor, Ivan Eremoff, Russian physicist and co-creator of the helicopter. Nine hundred automobile headlight bulbs, arranged in twelve circular batteries of seventy-five each, throw the beams that create the 1,800 tones the electronic organ can produce.

The beams are turned on by the touch of the keys, arranged in standard keyboard style. In front of the headlight bulbs, twelve slotted metal disks whirl continuously. Through these disks, the beams converge on two "electric eyes"—electromagnetic coils which translate the light to sound and throw the sound through amplifiers.

The tones are built up by mathematical formulae in terms of light values, with the various stops blending with a "fundamental." Each stop has a rheostat to heighten or lower intensity and thus obtain different effects. Two foot pedals give volume and tremolo control.

## ALL FOOD MADE HERE ILL

### Caused By Acidity— Corrected by Kruschen

"It is only fair to pass these facts on," writes a nurse, "I have rarely seen a patient who is not suffering from over-acidity and flatulence to such an extent that I was completely ill. I couldn't take food. When I actually forced myself to take something, I would be wretchedly ill. I have now taken Kruschen for 12 months and I have no doubt that it has righted my digestive system. I am now quite fit and able to work with vigor again."—Nurse E. S.

Indigestion is caused by a failure in the flow of the gastric or digestive juices. As a result, your food, instead of being assimilated by your system, simply collects and ferments inside you, producing harmful acid poisons. The immediate effect of these poisons is that they cause the formation of acid salts in Kruschen is to promote the healthy flow of the vital juices of the body. As you continue with the "little daily dose," it ensures the regular and complete elimination of all waste matter every day. And that means a complete end to indigestion.

## Recipes For This Week

(By Betty Barelay)

### ENGLISH YUMS

- 1 ½ cup sugar
- 1 cup evaporated milk
- ¼ teaspoon cream of tartar
- ¼ cup oleomargarine
- ½ pound peaches, chopped

Combine sugar, evaporated milk and cream of tartar. Cook, stirring constantly, until the soft-ball stage is reached (238 degrees F.). Add oleomargarine and cook until the mixture again comes to the soft-ball stage (238 degrees F.). Add nuts and beat until the mixture becomes dull—pour into a shallow pan which has been spread with oleomargarine. Allow to set and cut into inch squares. Makes 30 1-inch pieces.

### STUFFED HAM ROLL.

- Sliced of ham ¼-inch thick, cut from centre of ham
- 2 cups mashed bread crumbs
- 1 tablespoon minced parsley
- 1 cup tomato juice

Spread bread crumbs over ham; sprinkle parsley over it. Roll up and tie. Pour over tomato juice, adding a little hot water. Place in baking pan, basting occasionally during the two hours usually required for the baking process.

### Open To Canadians

New York Magazine Is Conducting Another Literary Contest

Any Canadian novelist who has not published a novel in book form is eligible for an attempt along with his countrymen to the south at winning \$10,000 offered by a New York magazine and publisher's house. This is the fourth competition of its sort, the first of which was won by Martha Ostenso of Winnipeg with "Wild Geese".

All manuscripts must be 50,000 words and must be in before Oct. 15, 1935.

## WHAT DOES YOUR HANDWRITING REVEAL?

By LAWRENCE HIBBERT  
(Grapho-Analyst)  
(All Rights Reserved)

(Editor's Note: Have you taken advantage of the author's offer to read your handwriting? It is an opportunity to know yourself better, and it may put you on the path to greater things. Read the offer following this article.)

It is not surprising that many of the letters I receive from readers of my articles ask whether there is any indication of talent. It is natural that people should be vitally interested in finding the best line of endeavor to follow, and any information that helps them to get the best out of their capitalization and make the utmost use of their latent possibilities is always welcome.

Handwriting does indicate talent, and this is not to be wondered at when we realize that handwriting is from the brain, and the brain is the source of individual power and capacity.

But the mere possession of a talent is by no means everything. We all know people who are talented in particular way, but who do not reach any heights of progress, who, in fact, are drifting along without ever doing anything really worth while.

One case in particular comes to my mind of a man who has a rare talent for drawing. He can do things with a pen and pencil that I have rarely seen equaled by a person without any training along that line. Unfortunately, he has no business sense and therefore more than enough of this world's goods, and is in a position where he does not have to work very hard for his money.

The result is that he has never gone to any trouble to bring out the best that is in him, and the world has lost a first-class artist.

This case will illustrate my meaning. It is not enough to have the mere possession of a talent does not imply that the talent will be used. There are certain essential characteristics that must be used in order that the talent can be brought into fruition.

One of my correspondents reveals talent potentials, but they lack one or more of these other traits that are so vital to progress in anything that you take up.

There are a lot of people who have made real successes of themselves, without any heredity or inherited talent, because they have had the will and determination to get somewhere. They have worked hard and made sacrifices in order that they might gain success.

And inversely, as I have shown, there are many who have the really vital spark of inspiration lying within them who have failed because of an inability to follow through.

Veracity is a good thing to have, but specialization more often leads to success. Make up your mind to follow a single line, and drive yourself forward with everything that you have along that single path.

Too many men in the fire are properly attended to, and the result is failure.

Miss J. C. Regina.—You are so versatile that it ceases to be an advantage, and becomes a positive disadvantage. You can do so many things fairly well that the trouble is to find one thing to specialize on. But you must do this, if you really want to get anywhere. Take up your singing, and put your whole heart and soul into it. Obtain proper training, and make up your mind that you are going to succeed as a singer. That is the only way.

A handwriting analysis may open the door of opportunity to you. Find out what your writing shows, as well as that of your friends. Send specimens of the writing you wish to be analysed, stating birthdate in each case. Enclose 10c coin for each specimen. All letters are confidential, and replies will be forwarded as quickly as possible. Some delay is unavoidable owing to the large number of letters coming in.

## SUNDAY SCHOOL LESSON MARCH 3

### PETER UNMASKS FALSEHOOD AND HYPOCRISY

Golden text: Wherefore, putting away falsehood, speak ye truth each one with his neighbor: for we are members one of another. Ephesians 4:25.

Lesson: Acts 5:1-42; 8:4-25.

Devotional Reading: Psalm 139:17-24.

### Explanations And Comments

Peter Unmasks Falsehood and Hypocrisy, Acts 5:1-4. But (in contrast to Barnabas' true generosity; see the preceding verses), another member of the Christian community, Ananias, sold some property, kept back part of the money received, and, with the connivance of his wife (Moffatt's translation), brought the rest of it and laid it at the apostles' feet, placed it at their disposal, as if it were the whole. "So it happens that he is not retaining part of the money received, for they had a perfect right to do this, but in pretending that he had retained part of the money, he was seeking to gain unmerited reputation for liberality. Thou has not lied unto men, but unto the Lord. He may be called as well as spoken."

The Fate of Ananias, Acts 5:5, 6. At these words Ananias fell dead, and his body was taken up and immediately buried. Here we may well recall the sensible words of Dr. Paine: that our mission is not to justify the ways of God to men, but to rectify the ways of men to God.

While it remained, did it not remain mine own? And after it was sold, was it not in thy power? How couldst thou have conceived this thing in thy heart? Peter's words show that the selling was wholly voluntary, and that the sin of the couple was not in retaining part of the money received, for they had a perfect right to do this, but in pretending that they had retained part of the money, he was seeking to gain unmerited reputation for liberality. Thou has not lied unto men, but unto the Lord. He may be called as well as spoken.

## GARDENING

Gordon L. Smith

Spring is once more approaching and with it the desire in the normal human being to start something growing. Soon all signs of winter will be gone, and the earth will gradually change from its drab coat of brown to something green and warm. But before this change, the would-be gardener commences his annual preparations. Plans are drawn up, seed catalogues perused, and the garden is checked over and over again. The interest is added to gardening by proper planning and much practical value is added to the garden. The humble barn or garage, the finished result will largely depend upon the thought which precedes actual construction.

### Width Vegetable Rows

Practically all vegetables should be grown in absolutely straight lines. Little things like lettuce, radish and carrots can be grown in rows from eight to twelve inches apart, while potatoes, peas and beans will need fifteen to eighteen inches and corn and tomatoes twenty inches apart. Cucumbers and melons from 18 to 24. To save space, rows of early and small stuff such as lettuce and spinach can be planted between corn and beans. Where this close planting is followed, it will be necessary to cultivate and fertilize frequently.

### Flower Plans

In planning the flower garden, time and money should be spent in planning. It should be started from seed indoors or in a hot bed. Certain flowers will stand a light frost and some will stand a hard frost. To prevent the tiny things from being hidden by such tall growers as Cosmos, African Marigolds and Stocks. Colors are important. Occasionally two shades do not go well together. Fragrance should be taken into consideration. Flowers like the sweet scented Evening Stock, while not particularly beautiful, have such a delightful odor, particularly in the early evening, that some of them should be included. Then again, flowers have individual preferences. Some like partial shade. Among these are tuberous rooted Begonias and annual Larkspurs, while the heights of the Portulaca and California Poppy need in full sun and a dry location. With flowers, shrubs, roses, lawns and all forms of decoration, the informal planting is advised. Straight lines should be avoided and those already in existence should be broken up. Foundations and fences should be screened. Clumps of shrubbery and a few trees about a house will not only break these harsh lines, but will tend to tie the structure down to earth and produce a complete picture.

Friend—"I suppose you have your share of doubtful bills on your books?"

Merchant—"I wish they were. There's no question about most of them."

Boss My wife found out that I took you to dinner the other evening.

Secretary—Well, what does that make me?

Boss My ex-secretary.

## Use ROYAL YEAST CAKES for a variety of breads like these...

Nourishing Graham Bread is always popular. Recipe on page 9, Royal Yeast Bake Book.

New Sun Reflector

Very Simple Device Has Been Invented In Germany

A simple device, consisting of a thin sheet of highly polished metal cut somewhat in the shape of a kidney, is a German invention designed to bring sunshine into every home. The reflector is especially useful for directing the health-giving rays of the sun to the face. It also can be used in treating other parts of the body where solar heat brings beneficial results. The polished sheet of metal is corrugated in such a way that its many flute-like ridges act as multiple reflectors which intensify the heat of the sun's rays.

The age of man has been placed at 16,000,000 years, by a new comparison of blood serums of mankind and ape.

## Are You a COLDS-SUSCEPTIBLE?

Do You  
CATCH COLD Easily?

Do Your Colds  
Hang On AND ON?

At the first warning sneeze, stuffiness or nasal irritation, quick-apply Vicks-Vapo-Rub—just a few drops up each nostril. Its timely use helps to prevent many colds, and to throw off colds in their early stages.

Don't take chances with half-way measures. Rub on Vicks Vapo-Rub—standby of two generations for relieving colds. Its direct double action—by stimulation and inhalation—helps to end a cold sooner.

### WELCOME NEWS FOR COLDS-SUSCEPTIBLES!

These twin aids to fever and shorter colds give you the basic medication of Vicks Plan for Better Control of Colds. You'll find full details of this unique, clinically tested Plan in each Vicks package.

## THE TENDERFOOT

By  
GEORGE B. RODNEY  
Author of "The Coronado Trail",  
"The Canyon Trail", Etc.

### SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

Dad Kane, desert rat and luckless prospector till now returns to tell Dustin and Spike Goddard, who had grubstaked him, of his discovery of a rich gold mine, and shows samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and tells Edith. He mentions their dispute could be settled by marrying him, and Edith refuses his proposal with remarks that make Dustin furious. He insults Stone, who promptly throws him into a pool of water.

Stone tells Crowe, his foreman, about his meeting with Dustin, Stone and Crowe go to Seco to send a telegram to Gerald Keene. While Seco an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men ruttling Carr's cattle. He sets out with Dad Kane to learn the location of his gold discovery. Dad Kane shows Dustin the mine.

They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peyotl Gregg, a drug addict, who, stupefied by the narcotic he had taken, did not know whether he was guilty or not. They bury Kane and then return to the Broken Spur ranch.

Meanwhile at the Hour-Glass, Carr, Crowe and Stone speculate as to the meaning of entries in the notebook, belonging to Dane Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by Edith Carr, rides out to Red Water to test out his theory, which proves correct, and they find the rich gold deposit mentioned in the notebook.

As they return to the ranch, they meet Dustin leaving the house, who, purposely, has unsuccessfully tried to ride down Stone.

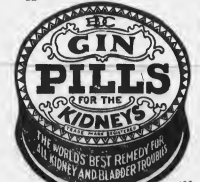

(Now Go On With The Story)

### CHAPTER XII.—Continued

"It's peyotl," he said sharply. "I know the damned stuff. Peyotl is the old Aztec name. All I know of it is that it is one hell of a kind of dope. After a little while it crazes the user . . . distorts his ideas of right and wrong, you know. If you found those half-smoked stubs by the camp fire, it's pretty clear that whoever

and came back with bottle and glasses.

"You're tryin' to talk like a sane man," he said, "but your words just don't target. You don't know this man Dustin. By Carr's note, Sam Dustin practically owns Carr's half of the Hour-glass ranch. Keene owns the other half. A gold-mine has been found on the Hour-glass. Will Sam Dustin give half of the Hour-glass with its gold mine to a man he never saw? What deal will he make with this Gerald Keene? I'll tell you. In some way or other, in some damned dark, deep way that we couldn't think of, Gerald Keene will lose his share of the Hour-glass and Sam Dustin will own it."

"Talk your age," said Stone laughingly. "This man Dustin, that you all credit with superhuman powers, can't work miracles, I reckon. The main thing for me to do is . . . find this man Kane. He's the key to the whole darned mess."

"You're probably right"—Jameson nodded curtly—"but consider this."

In the camp near where that gold-ore was found you found those pieces of peyotl cigarettes. I don't believe anybody about here but that man Gregg ever smokes them. If our guess is right, then Peyotl Gregg was with the man who found or located that ore vein. Probably old man Kane. The fact that Sam Dustin had that package in his coat pocket implicates him, of course. You can always get him under the narcotic law. He can explain it, of course. . . . But we don't need that now. Your best bet to find out exactly what has taken place is . . . question Peyotl Gregg or . . . Dad Kane. . . . And for God's sake tell his man Gerald Keene to watch his step when he gets here."

"What do you mean?" demanded the mystified Stone.

"You half-sacked idiot! . . . Jameson fung himself across the desk. "This man Gerald Keene represents one-half of the Hour-glass. Sam Dustin virtually owns the other half in the pite that he holds from Joe Carr. Gold has been found on the Hour-glass and Dustin knows about it. Do you want to see Sam Dustin marry Edith Carr?"

There was no doubt in Duro Stone's answer to that question.

"All right! Then carry out your first plan. . . . Find Dad Kane! I'll start a still-hunt for him. In the meantime we might try a . . . and at Peyotl Gregg if we can find him."

With those words in his ears, Duro Stone took his departure.

### CHAPTER XIII.

Spike Goddard watched Dustin ride up to the ranch-house of the Broken Spur and turn his horse over to one of the hands. With one glance at his partner Spike emitted a long, low whistle, went to the office, got out decanter and glasses and set down to wait. Presently Dustin stormed up the steps, banged into the house and into the office, where he stood staring at his partner. Spike's very silence condemned him; also it acted on Dustin like salt on an open cut.

"What the hell ails you?" demanded Dustin curly. "Anything happen to you?"

Spike shook his head. "Nothin' ever happens to me," he said. "I stay home and tend to my knittin' and nothin' ever happens to me. If I ever went tralpaing over the valley trailin' some red-headed girl who likes me just as much as a prairie-dog likes a ground-rattler, I might expect somethin' to happen to me but it never does. . . ."

The bottle whizzed past his head and broke in a score of fragments on the wall. He retrieved his glass that had escaped ruin and laughed.

"You go on an answer your own question. What all happened to you?"

Dustin told him sketchily and Spike listened in evident diablerie. When that diablerie grew too great for words, Dustin turned on him in growing wrath.

"Listen here," he said. "I'm goin' to come clean with you, Spike. Then you'll understand what I'm after."

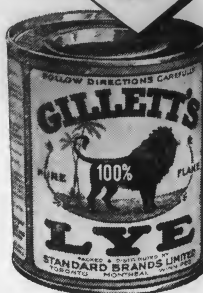

"I know," said Spike guardedly. "You're after that red-headed girl of Joe Carr's."

"Yes and by God, I'll get her, too. I want over to the Hour-glass to put it up to her, but she was out ridin' with that damned drug-store cowboy, wanderin' over the country. Six months from now she'll be my wife and she'll have her own kitchen to tend to. She'll be stayin' home then."

"Looks like that ambition ought to keep any red-headed woman content," said Mr. Goddard, grinning. "It looks to me like you've got the means to persuade her. Why didn't you tell old man Carr that you've bought up his note to Pegram for eleven thousand dollars and that if Edith don't marry you, they're both headin' for the Poor Farm? You'd have him short if you spring that on him."

## GREASY POTS AND PANS NEARLY DROVE ME WILD

UNTIL I USED

It lifts grease right off without scrubbing

Just use a solution of 1 teaspoonful of Gillett's Pure Flake Lye in a quart of cold water. Instantly the grease dissolves—without scouring! Use Gillett's Lye whenever you want an effective house-

hold cleanser. Frees clogged drains, cleans toilet bowls. Kills germs, and destroys odors. Order a tin from your grocer!

Free booklet—Send for the free Gillett's Lye Booklet. It tells how this powerful cleanser and disinfectant shortens dozens of cleaning tasks. Also gives full directions for soapmaking, thorough cleaning and other useful hints. Address: Standard Brands Limited, Fraser Ave. & Liberty St., Toronto, Ontario.

### Edison Bought Patent

Englishman Was First to Make Carbon Filament Lamp

The remark by a Toronto professor that Edison was not the inventor of electric light may surprise the majority of people, but it is quite true.

The first electric lamp was produced by Sir Joseph Swan, who was born at Sunderland, England, in 1828. He was a chemical engineer who first achieved success in improvements in photography. He made a carbon filament lamp as early as 1862, and in 1880 exhibited the first filament vacuum lamp.

Edison was working along the same lines about that time, and he bought the Swan patent. Subsequently the first lamps issued from his factory were described as "Edison" lamps, thus linking the two names together after Edison had improved on the original Swan lamp—S. Thomas Times-Journal.

### Little Helps For This Week

"The beloved of the Lord shall dwell in safety by Him, and the Lord shall cover him all the day long," Deut. 33:12.

Whate'er events befall, They will they all perform; Safe in Thy breast my head I hide, Nor fear the coming storm.

I have seemed to see a need of everything God gives me, and want nothing that He denies me. There is no affliction but either in it, or after it, I find that I could not be without it. Whether it be taken from me, or not given me, sooner or later God quiets me in Himself without it. I cast all my concerns on the Lord, and live securely on the care and wisdom of my heavenly Father. If my ways are in a sense hedged up with thorns and grow darker and darker daily, yet I distrust not my God in the least, and live more quietly by faith than I would do if I possessed everything.

I have seemed to see a need of everything God gives me, and want nothing that He denies me. There is no affliction but either in it, or after it, I find that I could not be without it. Whether it be taken from me, or not given me, sooner or later God quiets me in Himself without it. I cast all my concerns on the Lord, and live securely on the care and wisdom of my heavenly Father. If my ways are in a sense hedged up with thorns and grow darker and darker daily, yet I distrust not my God in the least, and live more quietly by faith than I would do if I possessed everything.

I have seemed to see a need of everything God gives me, and want nothing that He denies me. There is no affliction but either in it, or after it, I find that I could not be without it. Whether it be taken from me, or not given me, sooner or later God quiets me in Himself without it. I cast all my concerns on the Lord, and live securely on the care and wisdom of my heavenly Father. If my ways are in a sense hedged up with thorns and grow darker and darker daily, yet I distrust not my God in the least, and live more quietly by faith than I would do if I possessed everything.

### Question. What all happened to you?

Dustin told him sketchily and Spike listened in evident diablerie. When that diablerie grew too great for words, Dustin turned on him in growing wrath.

"Listen here," he said. "I'm goin' to come clean with you, Spike. Then you'll understand what I'm after."

"I know," said Spike guardedly. "You're after that red-headed girl of Joe Carr's."

"Yes and by God, I'll get her, too. I want over to the Hour-glass to put it up to her, but she was out ridin' with that damned drug-store cowboy, wanderin' over the country. Six months from now she'll be my wife and she'll have her own kitchen to tend to. She'll be stayin' home then."

"Looks like that ambition ought to keep any red-headed woman content," said Mr. Goddard, grinning. "It looks to me like you've got the means to persuade her. Why didn't you tell old man Carr that you've bought up his note to Pegram for eleven thousand dollars and that if Edith don't marry you, they're both headin' for the Poor Farm? You'd have him short if you spring that on him."

### LOCAL AND GENERAL

Sam Moores, Wm. Kerr, Henry Zak, and J. Fisher are entrants in the Lethbridge bonspiel.

Mr. Wm. Borrows, McGillivray timekeeper, has been confined to his home through sickness this week.

A. M. Densmore of Lundbreck secretary of Inland Petroleum Ltd., was a business visitor in town during the week.

Mayor and Mrs. George Pattinson returned on Saturday from six weeks visit at Victoria, B. C.

Recent reports from Vancouver indicate that Constable John Houghton has considerably improved in health during his rest there.

An amusing play sponsored by St. Paul's church, was a series of laughs from start to finish and was thoroughly enjoyed by the audience.

Mrs. Harrison Wiltse of Clinton, Ont. left for the east Tuesday, having been called to Coleman owing to the serious illness and subsequent death of her father, the late Alex. Cameron.

Good printed matter adds to the prestige of that with which it deals. Good clothes create a good impression, likewise does good printing produced under fair wage conditions by experienced workmen.

W. H. Hunter, district representative of The Great West Life Assurance Co., will interview any policy holder or others interested in protection or investments at the Grand Union hotel, Tuesday and Wednesday, March 5 and 6.

St. Alban's Women's Guild whist drive on Saturday evening reports the following prize-winners: Mrs. Halliwell, gent's first; Mrs. J. Derbyshire, gent's second; Mrs. H. Hulbert, ladies' first; Mrs. E. X. Hill, ladies' second; Mrs. W. Dibble, ladies' traveling prize.

Thoughts usually flow freely at night, especially if helped with a little lubrication, but they do look rather scrambled when reviewed next morning. It is so easy to become intoxicated with your own verbosity, even without the lubrication.

Trying to make yourself believe that one dollar has the purchasing power of \$12 is one of those things that is pure imagination. A dollar will purchase one dollar's worth of goods or services, and when it passes from your hands its purchasing power for you is completed.

Store

is now open, next to Bank of Commerce.

The famous Rawleigh lines of Spices, Extracts, Medicines, Toiletries, Stationery, School Supplies, Etc.

F. VERNON, Proprietor

Walter Bobbitt wants to know why he can't be mayor of West Coleman. He has lived there a good many years, went to the war, was a sergeant and since has sold good groceries. Just the other day a lady customer asked if his limburger cheese was good, and Walter in his inimitable affable manner replied: "Good? It's unapproachable!"

Masonic lodge members attending the social evening arranged by Lethbridge lodges on Saturday evening were R. F. Barnes, M. W. Cooke, Sidney C. Short, Albert F. Short and Alan Brown. They speak very highly of the splendid entertainment arranged by the host lodges. Medicine Hat members were there in force, as well as representatives from other southern Alberta lodges.

Armand Celli, The Journal's enterprising delivery boy in West Coleman and part of centre town, is a "great little fellow" who is always smiling, rain or shine. He believes in self help, and has built up a substantial list by his genial and courteous personality. Anyone who would like Armand to call weekly, just leave word at this office, and he will be pleased to leave a copy of The Journal for 5c.

Coleman people heard real Salvation Army music over the week-end when the local officers, Capt. Hotvedt and Lieut. Weir were re-inforced by Captain Halsey and Bro. F. Coxson of Macleod, also Adj. Chapman of Nelson, Capt. L. Hanson of Cranbrook, and Capt. Dale of Fernie. At open-air meetings and outside the hospital their spirited music was heard, bringing back memories of the Army in other lands and its world wide appeal to save souls.

Paul Luvera, several years ago a clerk in the Italian co-operative store, sent a notification in humorous vein to Ed. Ledieu of the arrival of a 1935 baby model, Paul Nicholas jr. The card announces that Mary Luvera was the production manager, Paul Luvera the designer and chief engineer, and Dr. H. E. Frost was technical assistant. He states there will be no new models this year, and the new arrival is on display at the Anacortes (Wash.) hospital.

Mrs. L. Fraser, who a year ago left to visit old friends in Nova Scotia, spending most of the time at Westville, returned this week. It was on municipal election day of 1934 that she left for the east, after casting her vote at the town hall. Many old friends will welcome her back to the old home town, and doubtless she will be pleased to find a marked improvement in local employment conditions. Since The Journal's inception, she has been a regular subscriber, and during her stay in the east was kept as fully informed of events here as if she received a letter from home.

### Boy Scout Notes

(Continued from Page One)

Crows Nest Pass District Association, presided, and Scoutmaster Jim Radford of Bellevue as secretary. Committee members from Bellevue, Hillcrest, Blairmore and Coleman attended, and a resolution was passed in which everyone present pledged themselves to work for the success of the special train on April 22.

Present were C. J. Tompkins, J. E. Gillis, H. Warn, Mr. and Mrs. J. J. McIntyre, Mrs. H. Pinkney, Mrs. Campbell, the Misses Ivy and Mabel Snood, Mrs. C. Devine, Miss A. Yuill, Miss Ella Emmerson, Mrs. R. P. Borden (district commissioner), Capt. Gresham (district commissioner Boy Scouts), Rev. A. S. Partington, H. T. Halliwell, Mayor Pattinson, Miss Jean Pattinson, Albert Marks and E. D. Battram. Rev. Fr. Dunbar of Coleman and Rev. Fr. Harrington of Blairmore, though unable to be present, sent messages expressing their support.

W. Dixon of Saunders, Alta., is here on a visit.
